Workgroup Charge

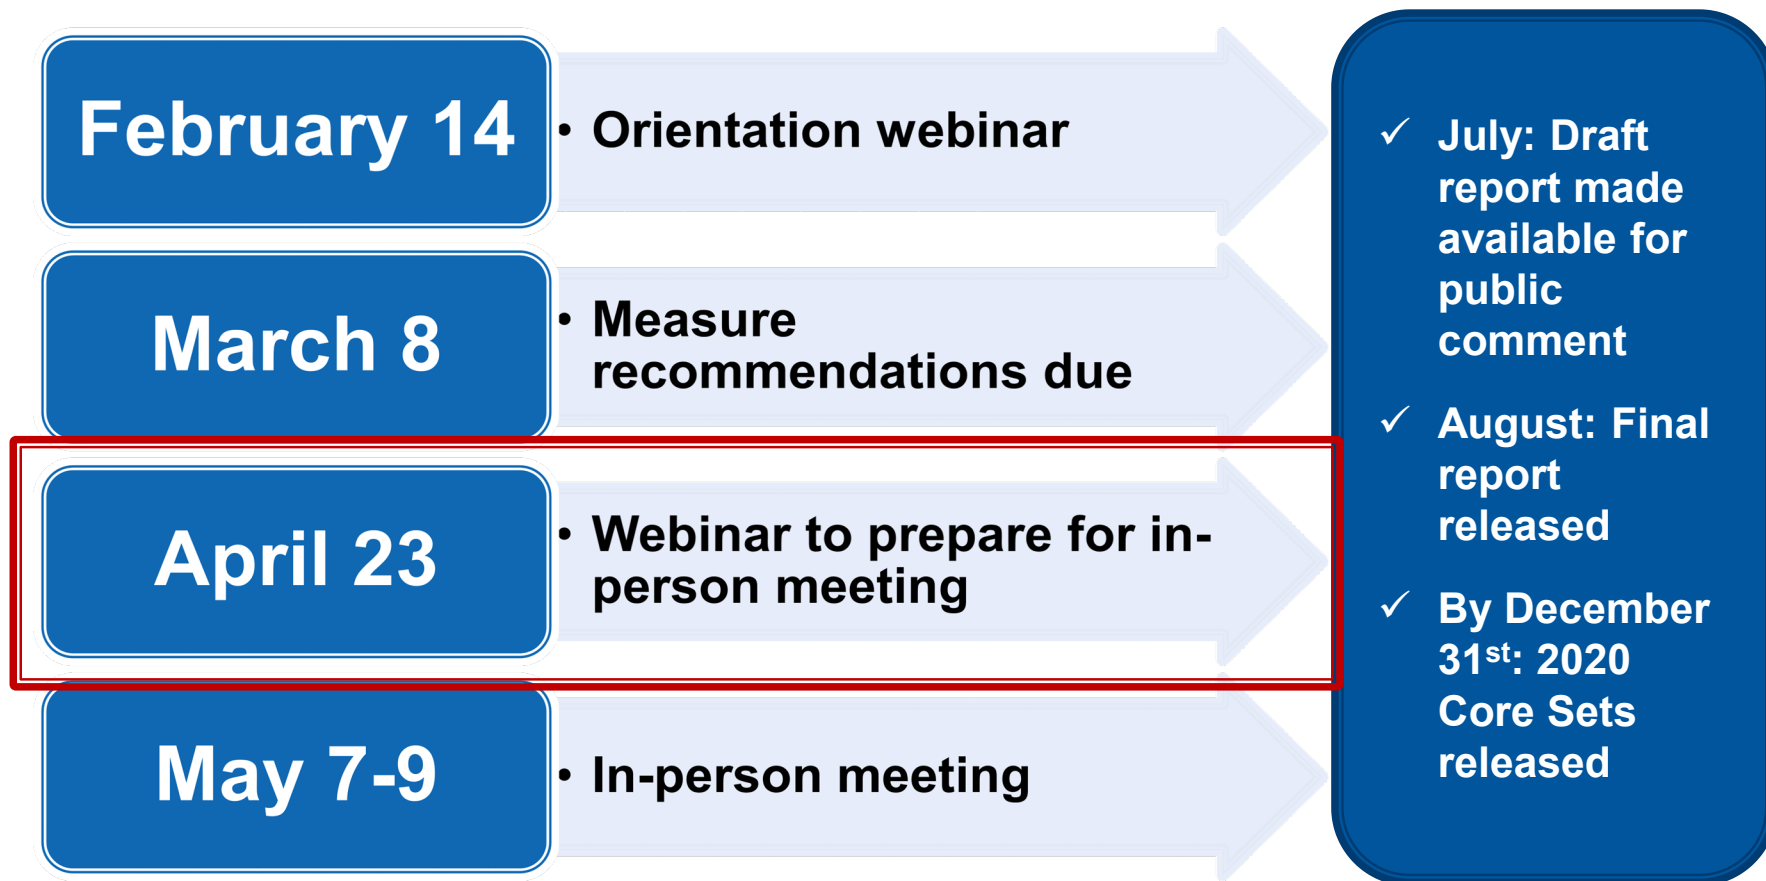

The Child and Adult Core Set Stakeholder Workgroup for the 2020 Annual Review is charged with assessing the 2019 Core Sets and recommending measures for removal or addition, in order to strengthen and improve the Core Sets for 2020.

The Workgroup should focus on measures that are Actionable, Aligned, and Appropriate for state-level reporting, to ensure the measures can meaningfully drive improvement in quality of care and outcomes in Medicaid and CHIP.

Meeting Objectives

- **Discuss a strategy for Core Set updates**
- **Summarize measures suggested by Workgroup members for removal from or addition to the 2020 Core Sets**
- **Describe resources available to Workgroup members for review of measures**
- **Present the May meeting approach and logistics**
- **Provide an opportunity for public comment**

Strategy for Core Set Updates

Purpose of the Core Sets

- **Medicaid and the Children's Health Insurance Program (CHIP) serve a large number of beneficiaries — more than Medicare and the Marketplace combined**
- **The Core Sets provide a consistent set of health care quality measures for measuring performance in Medicaid and CHIP**
- **The Core Sets facilitate analyses of the quality of care for Medicaid and CHIP beneficiaries for the nation overall and by state**
- **The Core Sets should also facilitate trending of performance over time**

Questions from Workgroup Members

Guidance to Workgroup Members for Reviewing Measures

Guidance for Measure Review

- Before the May meeting, Workgroup members should review all of the measures suggested for consideration by the Workgroup
- Resources are available on a Workgroup SharePoint site to help Workgroup members assess measure appropriateness and feasibility for the Core Sets
- To guide their review, Workgroup members should refer to the characteristics to consider for removal of existing measures and addition of new measures

Measure Review Resources

- **Measure Information Sheets (one for each measure)**
- **Core Set Measure Information**
 - Details on the 2019 Core Set Measures
 - Reasons for Not Reporting FFY 2017 Core Set Measures
 - Core Set History Table
- **Supplemental Links**
 - 2019 Resource Manual and Technical Specifications
 - 2018 Chart Packs and Measure Specific Tables (FFY 2017 data)
- **Medicaid and CHIP Beneficiary Profile**
- **Measure Review Worksheet**
 - Notes on measure review, questions, and planned vote

Characteristics to Consider for Removal of Existing Measures

- **Actionability**: Does the measure provide few useful or actionable results for state Medicaid and CHIP programs?
- **Clinical relevance**: Does the measure no longer adhere to clinical evidence or guidelines?
- **Feasibility**: Have states reported significant challenges to reporting the measure (such as barriers to accessing or using data needed to report the measure)?
- **New/alternate measure**: Is another measure being recommended to replace an existing Core Set measure?
- **Performance**: Have states consistently reported a high level of performance on the measure, indicating little room for improvement?

Characteristics to Consider for Addition of New Measures

- **Actionability**: Will the measure provide useful or actionable results for state Medicaid and CHIP programs?
- **Alignment**: Is the measure used in other reporting programs?
- **Appropriateness for state-level reporting**: Has the measure been validated and tested for state-level reporting and is it currently used by one or more states?
- **Feasibility**: Will states be able to access the data needed to calculate the measure? Would technical assistance be necessary or helpful to facilitate complete and accurate reporting of the measure by states?
- **Strategic priority**: Does the measure fill a gap area in the Child and/or Adult Core Sets?

Measure Review Worksheet

A worksheet to facilitate measure review, which includes space for notes on the measures, questions, and how you plan to vote.

Measures Suggested for Removal

Measure Information Sheet for each measure suggested for removal from the Core Sets.

Measures Suggested for Addition

Measure Information Sheet for each measure suggested for addition to the Core Sets.

Resources for Reviewing Measures

Additional resources to supplement the measure review including (1) information on the 2019 Core Set measures; (2) reasons for not reporting the measures for FFY 2017; (3) Medicaid and CHIP Beneficiary Profile; and (4) links to the 2019 Child and Adult Core Set Resource Manuals and Technical Specifications and 2018 Chart Packs (FFY 2017 reporting).

Workgroup Homework

- Workgroup members should review all the measures before the May meeting and assess the measures based on the characteristics mentioned earlier
- Use the measure review worksheet to facilitate your review and prepare for the in-person discussion
- On the worksheet, record any questions and your preliminary vote (recommend/not recommend for removal or addition)
- Thank you to the Workgroup members for taking the time to prepare for the May meeting

Questions from Workgroup Members

Overview of the May Meeting Approach

Approach to Measure Discussion

- The Workgroup will discuss 55 measures during the May meeting – 14 suggested for removal and 41 suggested for addition
- Measures will be reviewed by Domain without regard to Core Set (May agenda will provide review schedule)
- Within each Domain, we will first discuss measures suggested for removal followed by measures suggested for addition
- Measures will be considered in their specified form

Voting Process

- Voting will take place by Domain after Workgroup discussion and public comment
- Workgroup members will use an iClicker device to vote on each measure in its specified form
 - Measure for removal:
 - Yes = I recommend removing the measure from the Core Set
 - No = I do not recommend removing the measure from the Core Set
 - Measures for addition:
 - Yes = I recommend adding the measure to the Core Set
 - No = I do not recommend adding the measure to the Core Set
- Measures will be recommended for removal or addition if two-thirds of eligible Workgroup members vote “yes”
